SUMMER

Holiday

HOMESCHOOLWORK

CLASS
PREPARATORY

English | Maths | Hindi | G.K. | Art

Your child's brain active over break without them knows they're doing homework.

It's time to smile and play
My holidays are from 15th May
Wow! I'M WAITING FOR THIS LOVELY DAY.
I WILL HAVE LOT OF FUN,
With friends I will do a page of writing,
With no refusal and no fighting.

Dear Parents,

Summer vacation is a welcome break.... Break from fixed schedules, rules and regulations of the school. Freedom brings more responsibility, so keeping this in mind; we have planned most of the activities to keep our children engaged and also help them in channelizing their energies. Kind helps and guides your child in completing his/her work and also exploring his creative self.

Submit the given homework in a folder (clearbag) the name of the student mentioned along with his/her name, class and section. Kindly take print outs of the worksheets. It would be wonderful if the children themselves decorate the folders with their tiny hands.

Happy Holidays! Have fun with your little one!

Regards

Class Teacher

HOW INDEPENDENT CAN I BECOME?

Make your child more independent by teaching him or her various activities like Buttoning and unbuttoning the shirt.

Laying the table.

Folding mats and clothes.

Arranging their toy shelf.

Learning to wear shoes and socks.

Learning how to zip their school bag and their uniform (shorts).

Sorting and pairing household items.

Daily routine

- Do yoga and exercise daily.
- Help your elders in their work.
- Do practice one page English and Hindi writing.
- Daily practice one page reading of English and Hindi.

Fun Summer Activities

- **Plant a veggie garden.**

Detailed Steps:

Seed Collection or Purchase* : If growing from store-bought fruit, carefully extract the seeds from the pulp, wash them to remove the gelatinous material, and let them dry.

Seed Starting : Fill seed-starting trays or individual pots with a pre-moistened seed-starting mix. Sow the seeds about 1/4 inch deep, spacing them out (e.g., 3 seeds per cell) as not all seeds may germinate.

Warm and Sunny Environment: Place the trays or pots in a warm, sunny area.

Watering : Keep the soil consistently moist, but not waterlogged.

Thinning Seedlings : Once the seedlings are a few inches tall and have one to two sets of true leaves, thin them out so that each seedling has its own pot or cell.

Planting : Choose a sunny location with well-draining soil.

Watering and Fertilizing: Water regularly, especially during dry periods.

Caring for the Plant:

- **Make a bird feeder .**

Detailed steps

- Choose the right bottle. The first step is selecting a bottle to use as the body of your bird feeder. ...
- Cut feeding holes. ...
- Add perches for the birds. ...
- Attach the string or wire for hanging. ...
- Fill with birdseed. ...
- Hang the feeder.

This is a good activity for kids to indulge in as they can learn about different birds while also helping them. You can remind the kids to put out a bowl of water too for the birds and keep refilling it.
